

SMART Business Starts with SMARTLOGIX™

OPTIMIZATION SERVICES

PROFESSIONAL SERVICES

We are committed to providing the tools you need to change how you approach business. Optimization Services use **advanced tools and techniques** to achieve new levels of control, efficiency, and profitability.

Professional Services were established to ensure adherence to our founding principle that states: "We will succeed by making the success of our customers our highest priority." At SMARTlogix, we take your decision to invest in us seriously and we don't rest until.....well, we don't rest.

For more information about SMARTlogix' Professional Services call us today at 803-547-8265 or visit our Web site at www.smartlogixinc.com.

OPTIMIZATION SERVICES

Optimization Services make use of specialized tools and techniques that help provide improvements in control, efficiency and profitability. They are most likely to be employed after a customer has achieved a level of proficiency with the base line SMARTruck™ application or when a customer is having difficulty realizing the full system benefits.

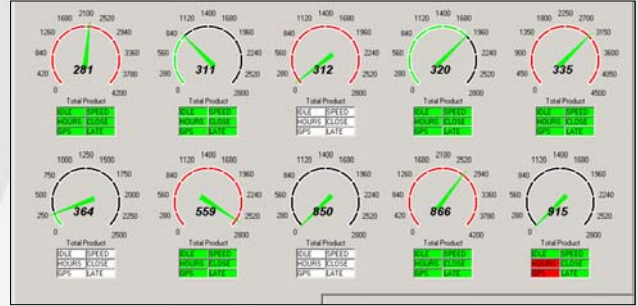

To begin the process, we typically **review benchmarks and targets** that were established during the original business process analysis. Next, we **assess utilization** levels to identify opportunities or any barriers that may be limiting the system's full potential. Finally, we provide benchmarks, help you **set new goals** and **develop strategies** for achieving them.

Activities:

- Evaluate System Utilization
- Review ROI Leverage Points
- Evaluate ROI Targets
- Analyze (new) Integration Opportunities

Deliverables:

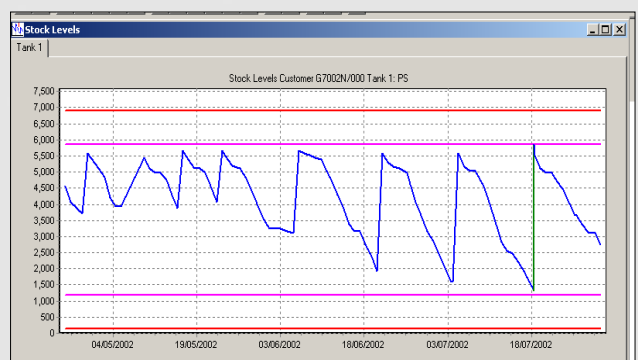

- System Utilization Assessment
- Optimization Strategies
- Process Flow Maps
- Territory Planning
- Key Performance Indicators (KPI's)
