

SMART Businesses depend on SMARTRUCK™

FLEET FUELING APPLICATIONS

SMARTRUCK™
Automated Dispatch & Delivery

SMARTruck's fleet fueling application sets a new standard for performance and **reliability**. Bar code scanning and vehicle recognition software provide an **efficient** and **error free** fleet fueling experience. Real-time, wireless data communication and back office integration software ensure timely and **accurate invoicing**. Digital posting of the vehicle fueling records to your accounting system and to the web makes this solution a must have for fleet fueling applications.

Capturing fleet fueling data is as simple as installing the only wireless, real-time onboard truck technology system on the market today. Call us today at 803-547-8265 or visit our Web site at www.smartlogixinc.com.

SMARTLOGIX™

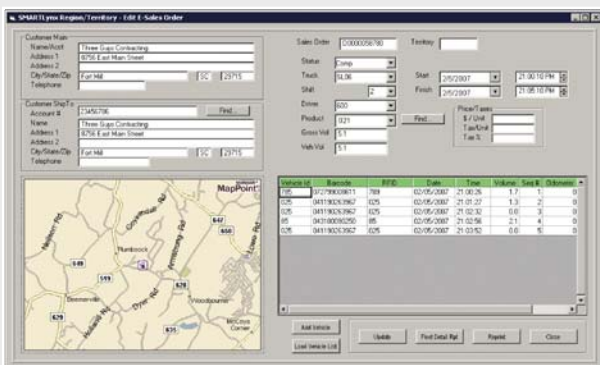

FLEET FUELING APPLICATIONS

SMARTruck handhelds are extremely rugged and are built to military specifications. They are designed to withstand all weather conditions and come with a full one-year limited warranty.

Track fueling locations easily with GPS technology. Capture vehicle #'s, products, gallons and time windows for each vehicle fueled.

HOW IT WORKS

- 1) **Orders Dispatched Wirelessly to Truck**
 - > Order arrives on handheld in the truck
- 2) **Driver Arrives at First Stop**
 - > Opens order on the handheld
 - > Display special instructions for that stop
- 3) **Driver Begins Fueling**
 - > Scans first truck with handheld
 - > Leather swiveling holster for hands free operation
 - > Handheld communicates wirelessly with truck
 - > View gallons on handheld
 - > Truck Completed
 - > Scan next vehicle
 - > Begin fueling next vehicle
 - > Repeat (scan & fuel until order is complete)
- 4) **Wirelessly Transmit Data to SMARTruck Server**
 - > Data received seconds after order is closed
 - > Edit tickets (if needed)
 - > Post fueling detail to the web
 - > Post fueling details to your accounting system
 - > Run fleet fueling reports activities
 - > Delivery ticket & signature is stored digitally

FEATURES:

- > GPS Tracking & Vehicle Monitoring
- > Barcode/RFID Scanning
- > Back Office Integration
- > Paperless Delivery Records
- > Printed Receipts with Signature Capture
- > Web Posting of Fueling Transactions
- > On the Spot Pricing
