

SMART Businesses depend on SMARTRUCK™

TRANSPORT APPLICATIONS

SMARTRUCK™
Automated Dispatch & Delivery

SMARTruck's transport system offers petroleum distributors a feature-rich, **real-time** solution for processing orders, managing dispatch functions and digitally **capturing delivery information**. The system's unique design provides a high degree of core functionality and can be **integrated** with virtually any back office **accounting system** without significant customization.

Automating your transport deliveries is as simple as installing the only wireless, real-time truck technology system on the market today. Call us today at 803-547-8265 or visit our Web site at www.smartlogixinc.com.

Signed receipts and BOL's are captured digitally and transmitted real-time as loading and deliveries are completed. With SMARTlogix' digital platform, your accounting department will be ready to invoice in minutes rather than days.

With SMARTlogix, you can start with our baseline drag and drop route planner and graduate to our more sophisticated forecasting & route optimization tools.

Features:

- Terminal "Best Buy"
- Match BOL's to Deliveries
- Back Office Integration
- Capture Delivery Signatures Images
- Capture & Transmit BOL Images
- Centralized Dispatch
- Paperless Dispatch & Deliveries
- Forecasting Tools
- Load & Route Optimization
- Real-Time On-Board Inventory
- Drag and Drop Visual Planning Board
- Manages DOT and Overtime Hours
- Monitors Wait Times at the Terminals

Benefits:

- Increased Fleet Efficiency & Capacity
- Increased Gallons Delivered per Day
- Reduced Vehicle Mileage & Maintenance
- Reduced Overtime Pay
- Increased Company Profitability
- Increased Driver Productivity
- Increased Customer Service
- Reduced Time From Delivery to Invoice
- Reduced Billing Errors
